Bankruptcy And Insolvency Taxation

Synopsis

The thousands of mergers, acquisitions, and start-ups that have characterized the past years of business have created an increasing number of corporations in financial trouble: specifically, a shortage of venture capital or quick cash. Consequently, bankruptcy protection is now viewed as a strategic move to protect corporations from their creditors and allow them to reorganize. Fully revised and updated with new case studies and the latest coverage of regulations, *Bankruptcy and Insolvency Taxation*, Fourth Edition provides the answers to the questions financial managers will have on the tax aspects of bankruptcy strategy.
