## Customer Reviews

So many spelling errors and some of the facts are repeated. The author clearly has no idea about Eminem or music. He refers to Marilyn Manson as a "her". Also Elton John's "Rocketman" was written well before Eminem was even a household name. There for, there could never be a dedication of a song to someone that had not even existed.

98% of this crap any entry level fan knows. Plus its all available on the internet, most of it on Em's

own Wiki page. Plus there are a couple "facts" on there that Em, Paul, etc have publicly refuted. Not to mention quite a few spelling errors throughout. Quick money grab, don't bother.

I was disappointed. I thought there would be more facts. There were many facts that were repeated. The grammar was also quite poor.

I didn't no all of that eminem you are so coolrap God is my favorite songbad guyby

I love this book, eminem is a legend and I have been a fan since day 1! I would recommend this book, there is a lot you can learn if you don't think you know everything about him. Great inspiration, loved it!
