DINOSAURS FOR KIDS: Amazing Facts, Awesome Trivia, Cool Pictures & Fun Quiz - The BEST Book Strategy That Helps Guide Children To Learn Using Their Imagination!: ... Of Animals In Our World (Did You Know? 1)

Synopsis

• AWESOME FACTS ABOUT DINOSAURS: I have intentionally selected a specific range of dinosaur facts that I feel will not only help children to learn new information but more importantly, remember it.

• FUN LEARNING TOOL FOR ALL AGES: This book is designed to capture the imagination of everyone through the use of "WoW" trivia, cool photos and memory recall quiz.

• COOL & COLORFUL PICTURES: Each page contains a quality image relating to the subject in question. This helps the reader to match and recall the content.

• INTERACTIVE: To engage and to help hold attention. Some sections require the reader to follow simple instructions in order to continue to the next level. My way of teaching attention to detail combined with coordination.

• SHORT QUIZ GAME - POSITIVE REINFORCEMENT: No matter what the score is, everyone's a WINNER! The purpose of the short quiz at the end is to help check understanding, to cement the information and to provide a positive conclusion, regardless of the outcome. Your search for the best Dinosaur book is finally over. When you purchase from me today, here are just some of the things you can look forward to:

- Amazing and extraordinary dinosaur facts. This kind of trivia seems to be one of the few things my memory can actually recall. I'm not sure if it's to do with the shock or the "WoW" factor but for some reason my brain seems to store at least some of it for a later date.
- A fun way of learning. I've always been a great believer in that whatever the subject, if a good teacher can inspire you and hold your attention, then you'll learn! Now I'm not a teacher but the system I've used in previous publications on Kindle seems to work well, particularly with children.
- A specific selection of those "WoW" facts combined with some pretty awesome pictures, if I say so myself!

Words and images combined to stimulate the brain and absorb the reader using an interactive formula. At the end there is a short "True or False" quiz to check memory recall. Don't worry though, it's a bit of fun but at the same time, it helps to check understanding. Remember, everyone's a Winner! Enjoy!

Matt.

A nonfiction illustrated children's book that presents facts about dinosaurs. My two year old loves this book. I can roar like a dinosaur and my little one can learn names and a fact or two of dinosaurs. I save this for when she is really tired now, those times she wakes up after being put to bed or special times like on the airplane. This book quickly became her favorite. Drawbacks? It is not really for a two year old. Sure, there are pictures. However the way facts are presented, it is definitely geared toward an older child. It is long with more words than a two year old would like. But so what? I paraphrase. Instead of a big paragraph, I tell her the main idea. The beginning is easy. It is chock full of pictures with the name of the dinosaur. When the facts come, I pick one fact to tell her. And she absolutely loves it. All those words just mean that she will like this book for years to come. Score!! I highly recommend this one for any little dinosaur lover in your life. My 10yr old said it was one of the best books she has ever read. It taught her a lot of facts about dinosaurs.

Informative book regarding dinosaurs. I think this would be a good book for a child who may have an interest in dinosaurs. It does contain links and other materials to reference more information. In case this book alone does not answer all their questions.

I guess I'm not that into them. Even my 5 year old granddaughter was not impressed. Sorry for the poor rating.

It was great. I just loved it, especially the quiz. I can't believe how cool the author was saying stuff like that.
