## **Customer Reviews**

I have been learning Korean from 2 high school students that lived in Korea for the last couple of

months. It has been difficult to get passed the language barriers as well as the pronunciation of words, on both our parts, but this has helped me understand more of how to speak Korean. I HIGHLY recommend this to anyone even REMOTELY interested in Korean! These are the best and most complete flash cards I've seen. On the front you have the word spelled out in Korean, given the phonetic so you know how its pronounced, and then a picture of what it all entails. On the back is the icing on the cake. There is a detailed definition and has all the same info on there as the front, as well as 2 complete sentences that you can use to apply that word, or small phrase, to a "normal" interaction ( ex. the color black. Your 2 sentences are "My umbrella is black" and "I have a black pen". Something you may not think you'd say or need to say, but you have the words right there for you to help further you along.) and they give you the Korean spelling as well as the phonetic way to pronounce it. Great product! Great price! The only con I have is: there aren't more of them!

My kids do not know Korean. After I sent one of my kids to Korean school these cards came in handy. Both my kids 2 & 6 love these cards. But I think the cards can be overwhelming if the child has no exposure to Korean, at least that was the case for my 6 year old. She showed interest in these cards after she started Korean school. My 2 year old likes to follow her sister, so we all review the cards together.

I am so happy with this purchase! It comes with a huge wall poster with the Korean words and pictures, which I am very excited about. The flashcards are really nice quality and has great teaching info on each. I think these will be a great teaching aid for myself and my kids!

My Korean husband found many typo, grammatical errors and semantic mistakes in these flash cards! DON'T buy this if you want to learn correct Korean!

Love that you can hear pronunciation on the cd and follow the written cards...kids love flashcards so i like the system. I love that they have children's songs on there. I kind of wish that they could add how to pronounce the "abcs" in korean on here too. but oh well. =)

Bought this for my daughter and me to assist us in learning Korean. Good for learning vocabulary, usage, and Korean writing. I really liked the short user guide booklet, has some good info about Korean language, tips, and some fun things like songs. If your interested in learning some Korean, this is a nice inexpensive product that I would recommend.
