The Sacred Contract Of America: Fulfilling The Vision Of Our Mystic Founders

Synopsis

You might think there's no place for spirit in politics, but Caroline Myss reminds us that "our founders initiated a divine contract when they created this nation. One that honors the natural laws of the human spirit." On *The Sacred Contract of America*, she expounds on her idea that we are individually contracted to fulfill a destiny, and shows us how countries, too, possess agreements as part of our planet's evolution. With this groundbreaking new recording, she sends out an urgent call for us to reconnect with America's original vision of freedom and liberty, and invites us to explore: How your Sacred Contract is woven into that of our nation, and how this knowledge empowers you to be a conscious citizen; Why our Constitution is in serious jeopardy, and what each of us can do to save it; The twelve archetypes of America, including the Mystic, the Entrepreneur, and the Rebel; and the historical figures who represented them.

Customer Reviews

"I believe that the energy fields of the founding fathers are back--and that America is on a respirator, as well as its vision. Freedom needs vision." - From Disc 1 According to a model created by Caroline Myss, each individual has a sacred contract that is comprised of 12 archetypes: the four "survival" archetypes of Child, Victim, Saboteur and Prostitute--as well as eight individual archetypes that represent a soul's unique charism. In her new 4-CD series *The Sacred Contract of America*, Myss espouses that every nation on the Earth also has a special contract of purpose, each also containing the four survival and eight specialized archetypes. Delving into American history, especially the ideals of the founding fathers and mothers, Myss asserts that these men and women

were "political mystics"--not necessarily religious, but still inspired by bright shafts of light that imbued a passionate vision for freedom. She also claims that although all countries are "loved by the Divine", they are not equal in the same way that not all organs of the body are equally vital to survival: some contracts are more pivotal than others in terms of the evolution of consciousness. And for Myss, America is one of the most pivotal nations in the world as "carriers of light from global self-esteem." CD 1A surprisingly tearful Myss shares that she was deeply influenced by her Marine father, bemoaning that his era clung to a patriotism that stood for ideals, not for what it could get out of things.
